North-East HQ: 178, Swagatam Path, Rajgarh Road, Guwahati, Assam - 781007

Event Overview & Benefits

What is MindCanvas?

MindCanvas is UCMAS's flagship drawing competition that gives children a vibrant platform to express their **creativity** through **art**.

Whether hosted in a *school, residential complex, or any community venue*, it's designed to be **fun, enriching, and confidence-boosting** for every **child**.

Why does UCMAS organise MindCanvas?

- UCMAS introduced **MindCanvas** to give children a **creative outlet** that complements their **cognitive development journey**.
- UCMAS develops a child's whole brain by Abacus training, *while MindCanvas* helps a child explore their **right brain** - **encouraging imagination, self-expression, and emotional intelligence**.
- By **engaging both sides of the brain**, we aim to support a **child's holistic growth** – *not just academic excellence, but also confidence, creativity, and joy in learning*.

What are the benefits of MindCanvas?

MindCanvas encourages children to **think freely, imagine boldly,** and **express themselves** visually. It promotes:

Original thinking

Emotional expression

Confidence through creative exploration

What are the participation details?

- Whether you represent a school or a residential association, **hosting MindCanvas is simple**.
- **Our team** will provide *registration support, drawing sheets, guidelines, and evaluation criteria*.
- **Mega Drawing Competition Round:**
A **Single Day** is **dedicated** to all **children participating** in the **event** and at a *later date, all the certificates and trophies are distributed at a common venue*.

Awards & Recognition

Hampers** for
Top Performers

Recognition for schools & co-ordinators

**Mementos for
Partner Schools**

**Emotional
expression**

**Confidence through
creative exploration**

About UCMAS

The Organisation behind MindCanvas

UCMAS (Universal Concept of Mental Arithmetic System) is a **globally recognised brain development program** for 4-13 year old children.

80+ Countries

6000+ Centers

30,00,000+ Students Trained

“Through our unique **6-Finger Abacus Technique** and **whole-brain training approach**, we help children enhance **focus, memory, visualisation, listening skills, and mental math abilities**.

At UCMAS, we believe every child has **limitless potential!**

Our scientifically designed program doesn't just teach mental math – it builds the foundation for **lifelong learning, sharper focus, faster thinking, and stronger confidence**. By training both sides of the brain through the Abacus method, we prepare children to **excel academically and thrive in life**.”

Prof. Dr. Dino Wong

President & CEO, UCMAS Global (Malaysia)

Mind Canvas & NEP 2020

A Perfect Alignment in Action

Art-Integrated & Experiential Learning	MindCanvas brings NEP's art-integrated pedagogy to life through joyful expression.
Competency-Based & Joyful Assessment	MindCanvas lets children demonstrate creativity and observation — not rote learning.
Holistic & Whole-Brain Development	MindCanvas balances logic and imagination, nurturing NEP's vision of whole growth.
Inclusive & Equitable Participation	MindCanvas invites every child to create and shine, reflecting NEP's inclusivity.

Let every child's imagination shine!
